

I would like to introduce myself to you. I have recently returned to Australia from the U.K. where I have been working for 'North Devon Firearm Services', Jim Goodwin, the founder and owner recently retired after 37 years in the business and left me with his blessings to continue his work here in Oz.

In the past we have made dies for everything from .25 auto to a set of dies for a 1.5" Ship mounted anti aircraft gun. All die sizes are catered for from the Simplex to 1.25", 7/8 x 14 being the standard.

We also supplied turned cases for black powder calibres again from rook upwards.

During the last few years the main selling calibres were 577/450 MH, 577 Snider, 11mm Mausers, 310 Cadet, all the 43 calibres and an assortment of Rook calibres.

I have now set up my workshop and have just completed an order for over 100 sets of loading dies for one of the 38/45 variants (or 38 JWH as it is to be known here).

These were made in 7/8" x 14 with additional orders for Forming dies both 2 and 3 piece sets. I also made dies to fit Simplex and for the Dillon Square Deal.

My main interest is with obsolete calibres and I look forward to carry on specialising in the supply of dies and cases for calibres not catered for by the big boys.

If I can be of any assistance to you in your shooting or business, please do not hesitate to contact me on any of the numbers below.
